Mar 2026 – Present

EXPERIENCE *UI/UX Designer (Part-time)*

Ankara, Turkey · Hybrid

- Designed and improved mobile UI/UX for EV charging applications.
- Collaborated with design and development teams on new feature development.
- Participated in product meetings, analysis, and development processes.
- Conducted UI/UX analysis and software testing during release cycles.
- Ensured design-to-code consistency using Figma.

CODEBASE Technology

Sep 2024 – Mar 2026

UI/UX Designer (Part-time)

Ankara, Turkey · Hybrid

- Designed a mobile application from scratch using Figma.
- Created wireframes, user flows, and high-fidelity prototypes.
- Built component-based design systems using auto-layout, variants, and variables.
- Conducted competitive analysis on 10+ apps to improve usability.
- Collaborated with frontend and backend developers to optimize performance.

CODEBASE Technology

Jun 2024 – Sep 2024

Software Testing Intern

Ankara, Turkey · On-site

- Tested EV charging mobile app and web platform for functionality and UI/UX accuracy.
- Reported and tracked bugs using Azure DevOps.
- Performed regression testing and supported major releases.
- Contributed to MAUI transition and product redesign.
